

## User Guide

### Introduction

The Battery Booster Pack is a high-performance external power module compatible with our GS1/GS2 series devices. This product provides stable and long-lasting power support for environments that require long-term stable monitoring of temperature and humidity, such as laboratories, warehouses, and cold chain transportation, ensuring that devices can continue to operate without an external power source.

### Applications

It is widely used in cold chain transportation, agricultural greenhouses, laboratories, warehousing and logistics, outdoor monitoring, and other applications.

### Features

- Plug and play
- Stable output voltage
- Lightweight and portable
- Flexible power supply

### Specification

Specification		
Product Model	UB-BAT-N1	UB-BAT-N2
Power Supply	18650 battery * 4	AA battery *8
Dimensions	152*90*28mm	
Net Weight	145g	
Color	Black	
Output Voltage	DC 12V	
Connector	DC 5521	

### Note

1. When installing the battery, pay attention to the positive and negative poles of the battery. Do not install the battery in reverse.
2. Do not use batteries that are damaged, deformed, bulging, or leaking.
