

User Guide

Introduction

This product is a one to two audio converter made of all copper material, ensuring high fidelity signal transmission and stable and reliable performance. Supports a standard 3.5mm audio connector that converts one audio male connector into two audio female connectors, and can connect multiple audio interfaces with external sensors. The product is easy to plug and unplug, and the interface is durable.

Applications

It is widely used in warehousing and logistics, greenhouses, cold storage rooms and many other places.

Features

- All copper material
- Compact size, lightweight and portable
- No configuration required, plug and play
- 3.5mm audio interface

Specification

Specification	
Product Model	UB-CS-A2
Cable Length	36 cm
Cable Material	all copper
Net Weight	13 g
Color	black
Connector	1 x Audio Male + 2 x Audio Female

Wiring Instruction

NOTE

1. Please hold the plug gently when plugging or unplugging, avoid pulling and tugging on the cord to prevent the connector from loosening or being damaged.
2. Please do not plug and unplug with electricity, and be sure to disconnect the power before plugging and unplugging to avoid equipment damage.
